GENERAL INSTRUCTIONS The cost approach to valuation is used to estimate the value of personal property.

There are various schedules on this return for reporting different types of personal property. Enter the requested information for those schedules that apply.

Year Asset Acquired	This is the year an asset was purchased / acquired. There is a catchall "PRIOR" row for all assets acquired before the last year that is pre-printed above it.
Cost As Of 1/1/2011	For each applicable Schedule, enter the sum of the cost for all assets acquired in the year shown. It should be the same cost as reported on your 2011 return.
Additions / (Disposals) *	Enter any changes since last year's assessment date of 1/1/2011. Assets that have been sold, discarded, or transferred-out to a location not covered by this return should be shown as disposals (-). Assets that have been transferred-in to this location should be shown as additions (+). Assets that were formerly leased but are now owned, should also be reported as transferred-in for the year the lease began, not the year the lease ended, and at the original selling price had the asset been purchased outright rather than leased. Do NOT report the lease buy-out price because it excludes the portion of the cost covered by the lease payments. If there have been both additions and deletions in a given year's row, show the net change in that year's row.
Cost As Of 1/1/2012	Enter the Jan. 1, 2012 sum of the cost for all assets acquired in the year shown. It should be the amount calculated by combining the previous 2 columns.
Life	The following useful lives are to be used: Boats=20; Car Wash Equip.=8; Cash Registers=6; Coin-Operated Laundromat Eq.=8; Computers=4; Copiers=6; Cylinders=20; Dumpsters=15; DVD's / Games / VHS tapes=5; Faxes=6; Forklifts=8; Tanks=20; Towers=20; All Other=10.
Factors	On most schedules the valuation factors are pre-printed. For Schedules D, F (Miscellaneous section) & G you will have to enter the factor. Find the appropriate factor on the Table of Valuation Factors shown below using the year of acquisition and the useful life.
Value = Cost Times Factor	The estimated 'Value' of the assets, is the product of the 1/1/2012 cost multiplied by the "Factor". CALCULATE THE COLUMN TOTAL AT THE BOTTOM, AND ENTER IT ON THE APPROPRIATE LINE OF 'SUMMARY SCHEDULE A' THAT IS ON PAGE 1.
Explain Decreases	Provide an explanation for any net decreases in the 'additions / disposals' column. Unexplained decreases are subject to review and/or revision.

LEASED or RENTED PERSONAL PROPERTY Schedule D is for reporting Furniture & Equipment that is in the possession of someone other than the owner of title. It is imperative that you identify all such property to avoid duplicate assessments against both the titleholder and the party-in-possession. Fixed Assets acquired through Contingent Sales, Lease Financing, Capitalized Leases, Rent-To-Own Agreements etc. are also to be included.

If you are the: Party-in-Possession: Report the Name of the Owner of Title and their mailing Address.
 Owner of Title: Report the Name of the Party-In Possession and the Location of the personal property.

Leasing Companies may submit computer print outs of their lessees, or they can e-mail the information, in Excel spreadsheet format, to: assessor@milwaukee.gov.
